MR. ROSS ON IMPERIALISM

Ontario Premier Rogers Himself With Mr. Chamberlain.

Arrested Believer of the Empire-Building Policy of the Premier Chamberlain. Says—How Commercialism Between States Means War—Finds No True Basis Instead of Foreign Trade.

Toronto, Dec. 1.—Premier Ross declared himself a stout Imperialist and believer in Mr. Chamberlain's Empire-building policy at the weekly luncheon of the Canadian Club yesterday afternoon. He was the speaker of the day, and his words were loudly applauded by 250 club members, who greeted with in the banquet hall. He also declared his unalterable opposition to reciprocity with the United States, asserting that Canada must be independent of any union with Congress, which might alienate our reciprocal arrangements on the mainland, produce

Canada's Small Trade.
The Premier's forthright Imperialist attitude that would secure to Canadian farmers by the imposition of a duty against the United States, because of six cents a bushel to Canada wheat, would be disastrous in his mind. England, he said, imported 400,000,000 bushels of wheat, 20,000,000 bushels from Canada. The preference would stimulate foreign immigration to our great markets, serve in the west, and every preference would benefit from the bounty. The flow of immigration would increase the home market for manufactures. The flow of immigration would increase the home market for manufactures. The flow of immigration would increase the home market for manufactures.

From Ross. From British Instead.
Dealing with the proposed preference of 5 per cent. to colonial meat, Mr. Ross pointed out that at the present time Great Britain consumed 2,000,000 pounds of fresh meat, and Canada supplied only three days' supply. He said that if this was

though, we relinquished the British market, a little preference would do us good.

He said a preference of 10 per cent. to colonial manufacturers would help Canada to supply some of the 2,000,000,000 of manufacturers which England imported. Canada's exports of manufactures amounted to only \$20,000,000, but the manufacturers had to work at a great disadvantage, owing to distance and lack of transportation. The preference would overcome some of these disadvantages. Canada's manufactures were increasing, and we would soon require a larger market.

How to Promote Trade.
The speaker spoke of the \$60,000,000 of manufactured articles imported into Canada from the States and observed that it would be a patriotic thing to import them from Great Britain rather than from the United States. He was a foreign man of war as he should be. It would be well if the Empire were independent of foreign countries.

Commercialism made for peace, observed the Premier in a burst of eloquence. Mr. Chamberlain's object was to make the Empire self-sufficient for commercial advantage, and that was a good thing. He said that the Empire should be a trading bloc, and that could be entered into with the States. He said that the Empire should be a trading bloc, and that could be entered into with the States.

To Sweeten Feather Beds.
 Feather beds and pillows will be lightened and sweetened if laid on the ground during a heavy rain, then lifted up on chairs or other support and allowed to dry in the open air. During the drying process best vinegar will be rubbed over the beds and pillows. This will get rid of the odor and will be purified by taking of the outside and laying in the sun on the grass for several hours.

Leadsmen.
 Washing soap should never be used on linoleum, as it attacks the paint and with which it is designed. To clean it, if very dirty, wash first with soap and water to which a little turpentine is added, then rub with a cotton rag dipped in equal parts of kerosene and oil and always.

Don't Gash.
 Don't gash if you want to be attractive. You may not be beautiful or clever, but if good tempered, possessed of the art of looking on the golden side of things and never giving up, you may be more attractive than the many girls who can boast only of their beauty.

To keep on using an old, stinky, worn-out broom is the poorest kind of economy.
 No. Only does it waste the carpets, but it takes double time and strength to do the sweeping.

No matter how slight or how extreme the decolour, it must be round or square.

Good Words for Iron-ox Tablets in Windsor.

February 24, 1903.
 I have not taken any Tablets lately, as I do not require them, but I am sure they did my son and me very much good for constipation and building up our systems. I have recommended them to a very great number of people that I meet in my calls at over 300 houses every week, and I find a number have tried them with good results.

The Function

of the kidneys is one of the most important in the human economy. To everything we eat and drink, no matter how "pure" the food is labeled nor how careful we are, poisons enter. Were we not provided with organs especially designed against these poisons, human life would soon perish. The kidneys are the filters of the blood. They catch the poison in the blood and expel it from the system. To do this they must be healthy and vigorous. When they are weak, or overworked, or clogged, or handicapped by disease in even a slight degree, they work imperfectly, or not at all. The best remedy for disordered kidneys is

Bu-Ju

This latest product of medical research stimulates and tones disordered kidneys to healthy action, the poisons are cast from the system, and health returns. Bu-Ju is sold by all druggists in boxes of 30 pills, 50 cents. Do not waste time and money on useless substitutes for Bu-Ju, the kidney pill that cures.

A VISIBLE DIFFERENCE

There's a very marked and visible difference between the usual Ready-to-Wear Overcoats and the lines we show.
Ours, while made under most approved conditions to bring the cost as low as possible consistent with good values, are not cut in bunches and thrown together by inexperienced help. They are cut by the best tailors in the city. They are cut by the best tailors in the city. They are cut by the best tailors in the city.
They fit around the collar. The shoulders are padded to stay square permanently. The skirts are full and yet hang correctly. The linings and trimmings are equally as high grade, as the common kind.
Come and examine the garments for your own satisfaction—and ours.

NEW FUR FASHIONS.

FURS TO REIGN SUPREME IN OUT-

See Handmade Hairs Piled Upon An-

Bold outlines, picturesque details of

form and coloration in trimmings

are to make luxury more fashionable

in fur. And, not content with new

fashions, designers are now using

furs of other than the usual

kind of winter animal garment.

As to shape, coats are now long

three-quarters or short, according to

the fashion.

The most popular of the new

fashions is the "Hooded" coat, which

is a simple, elegant, and

practical garment.

It is made of the finest

furs, and is trimmed with

Fighting is terminated.
Horse, Dec. 10.—The Italian cruiser Ancherita, the gun boat Vittorio, the despatch vessel Giulio, and the cruiser Cristoforo Colombo will proceed to Durban, to deliver punishment on the Somaliland tribe, which on Monday last killed Lieutenant Commander Graham. News that the British cruiser Melchior landed a detachment of marines at Durban and set the village on fire caused some surprise. But being the Italian pro-jectors, it is estimated that a British warship would not undertake a belligerent operation there.

Shore Strife Doesn't Last.
Quebec, Dec. 10.—The shoreward decided to enter the matter of the lock-out of the shore laborers to the Board of Arbitration, and it is expected that the Board of Arbitration will order the opening of the factories before taking the matter up.

Stallion Side Lost.
Astoria, Ore., Dec. 10.—The Italian ship Centaur, master John, for East London, South Africa, which was ashore at Port Natal, Natal, Sunday night, is now a total loss.

Allye Lane Investigator.

Croupy Coughs and Asthma Gasp

ARE ALIKE RELIEVED AND CURED BY THE SOOTHING, HEALING INFLUENCE OF

Dr. Chase's Syrup

of Linseed and Turpentine.

Thousands of mothers feel grateful because it has been the means of saving a darling child from a painful struggle for breath, a victim of croup.

It also shows the asthma suffered from the dreadful paroxysms which cause such much agony and cures asthma, as has been proven by a hundred cases.

The effects of Dr. Chase's Syrup of Linseed and Turpentine are both thorough and far reaching. It cures what ordinary cough medicines have little or no effect.

From childhood to old age, this great treatment for ailments of the throat and lungs stands as a safeguard which prevents coughs and cures them. It soothes the inflamed lung and relieves lung pneumonia and croup.

Dr. A. Vanhook, Robinson, N.Y., writes: "I have used Dr. Chase's Syrup of Linseed and Turpentine for my children wherever they have been. It has cured them of every form of asthma. We have used it as a cough medicine that worked so satisfactorily."

"For years I have used Dr. Chase's Syrup of Linseed and Turpentine for my children wherever they have been. It has cured them of every form of asthma. We have used it as a cough medicine that worked so satisfactorily."

A MERRY, MERRY CHRISTMAS.

"Don't you hear them bells?" Then Christmas bells. They have been jingling with us for the past two or three months; and now Santa Claus has given us permission to jingle them for you; and from now on we shall make them

Jingle Merrily.

If some of the melody does not get into your home it will be because, like the foolish virgins, you waited till the eleventh hour. The choicest things will go first of course. No need to wait until the others have bought the very things you wanted, and it is too late to get more. Buy now; you'll have them delivered now, we'll store them for you, have them delivered when you say. Here are a few suggestions.

TIMELY TOPICS.

That was an ill wind, but it blew good to the some of us. Didn't the above "furnace" just cut up the black diamonds yesterday?

The blustering breezes whistled through the telegraph wires, and the tune seemed to about fill these words:
"What you people ain't it fun at turning out \$7 & 8 a foot?"

It was not tight leaving that around all the red snow yesterday.

If this kind of weather keeps up Santa Claus had better equip himself with a wind shield and a pair of goggles.

But then we have heard more people wonder if Santa Claus will be able to raise the wind this year.

He is not, however, likely to have much difficulty in North-Norwest, Cap. Sullivan and Rose will see to that.

The Mad Malibu's men have turned heads. Like the Huns of the West, they are making good enough to hit somebody.

A group of church-going people, taken last night, would have shown the city-still-at-night to be largely in the majority.

From Portland comment to poultry may seem a far cry, but it is a fact that the Poldi Ann cement works have made great headway this winter. It seems that what farmers win down in the direction had grown setting just at the time the cement men were getting off their heavy boots.

The result was disastrous to the eggs. One farmer's wife had thirty-four eggs spoiled, and every one, when examined, had a dead gooling in it. You can laugh about this if you like, but it is a concrete fact, just the same.

If you are a man hoping slightly that those days don't run away with the idea that he has rheumatism. He may have had a fall on one of those spring grasshopper sleds, or for that you know, may have had his foot pulled violently in the interest of the approaching holiday season.

London, Dec. 14.—The Atlantic Transport Line steamer *Monmouth*, bound for New York, was put into Falmouth yesterday, after having been driven ashore by the force of the waves. ANCIENT FISH CURES.

MEDICAL VIRTUES THAT USED TO CURE THE FINNY TUNE.

There was a fish cure in Germany years ago. The cure was made in the fish. It was made in the fish. It was made in the fish.

Fishing literature prior to the days and legends of Isak Walton open up points of interest of the fish cure. Not the least interesting are the constant references of the early writers to the medicinal virtues of the fish.

TIMELY TOPICS.

During the coming Dominion election campaign it would be well for the electors to ponder on the words of Hon. Mr. LaSalle, Minister of Fisheries, in the Legislative assembly, who thus expressed himself on the Grand Trunk Pacific Bill: "There is no necessity, there is no reason, there is no justification, there is no objection, and there is no objection to be attained. It is absolutely useless. It is a total and absolute waste of public money. It is not only a destruction of the Intercolonial, but it is a show-up of the squandering of the public money. I cannot speak less strongly because I feel strongly with regard to this." What honorable man can support a Government which is thus shown up by one of its own members?

\$5,541,525 barrels of this year's denatons wheat crop have been marketed to Dec. 1st. After allowing for feed and the quantity required for feed, it is estimated that 10,000,000 bushels remain to come from farmers' granaries.

The Liberals, after fighting against the postponement of the trials of the North Parth and Clara Morley election protests, are now pressing for an adjournment in the House of Commons. What soul takes they are.

The appropriations asked for this year by the United States Congress amount to \$24,000,000. Not a small sum to run a country.

On Fall River, Mass., U.S., the cotton mills are curtailing their output. The mills employ 700 hands, and since the adoption of the new wage scale have had a weekly pay roll of \$5,500. The mills, under normal conditions, have an annual production of 25,000,000 yards of cloth. The same output is being produced in Charlotte, North Carolina, showing that the market is now glutted, hence dumping upon the Canadian market may be looked for.

The principle of protection must be firmly rooted in the minds of the electorate of Canada, when men like Andrew Patterson, Esq., of Ontario, who has been holding forth in England lately, would declare that "every workman in Canada favored protection," and that two thirds of the Liberal party in the Canadian Parliament were agreed with the Conservative party on the question. What will Richard Cartwright, Fleming and Fisher say to this?

The result of another strike by the four men were shot at Trinidad, Colorado. One is dead, another dying, a third shot in the groin, will probably die, and the fourth, who was shot in the wrist, is in jail. There were seven in the party, three of whom escaped. All the result of the lawlessness of the strikers.

Dr. Eastern Ontario Review, a Liberal paper, says: "For several years the editors of Liberal weekly newspapers have been mooting the notion of 'warring.' They were ridiculed and held in contempt by the Globe and other big Liberal newspapers, which today are beginning to realize that these 'warrings' are not given without sound sense and true liberalism to back them up." Harshness and 'hangers of the machine' are too foolish to be longer tolerated by Liberalists.

Though the judges have decided to allow the election protests of North Parth and North to go to trial, with events and what if these does not call a session of the Legislature, no 50 to stop the trials until after the session. It is known what happens and ballot-boxes can be.

Morganite (morning gift) was the Anglo-Indian term for pin money. It was bestowed on the wife on the day after the marriage. When pin money scarce and articles dear pin money was given on New Year's day, and on the last and 2d of January the court ladies reported to the pin makers shops to replenish their stock for next year.

Cattle Registration. Live cattle were first landed in England from America in 1850, but the regular traffic did not begin until 1876.

Great bellows, like great men, are only at intervals.

A MERRY, MERRY CHRISTMAS.

"Don't you hear them bells?" Then Christmas bells. They have been jingling with us for the past two or three months, and now Santa Claus has given us permission to jingle them for you; and from now on we shall make them.

Jingle Merrily.

If some of the melody does not get into your home it will be because, like the foolish virgins, you waited till the eleventh hour. The choicest things will go first of course. No need to wait until the others have bought the things which you wanted, and it is too late to get more. "Boy" you wouldn't have them delivered now, we'll store them for you, have them delivered when you say. Here are a few suggestions.

TIMELY TOPICS.

King Edward says that electric light bulbs are responsible for the activity. Why not give the Belleville Board of Trade a course of electric light bulbs? Perhaps, if it cannot help halting the boys and girls, these bulbs have been more at the public meet. It's a good thing the watching lack, otherwise, the folks who sell poultry on the market-to-morrow would hardly be able to carry all their monkey business.

Adultery and Breach of Faith. It is a common belief that many anti-social acts and furry events. Kerner declares that they are caused by the "round city." The city is thought to be especially strong in those days. There are those who have foreseen the turning of towns, on which they have been to build their nests and to have abandoned them, taking up their abode on other buildings or on trees in the middle. No number had the anticipated configuration taken place and a new house been erected on the same site than they retained and built their nests as before.

Oldest Clock in the World. The great clock of Wells cathedral, in Somersetshire, England, is very nearly the oldest and certainly the most interesting of clock in existence. It was built in 1323 by Peter Lightfoot, son of the monks of Glastonbury abbey, six miles from Wells, where it was for 550 years until the abbey dissolved by Henry VIII. and its last abbot handed over the town gateway. The clock was then removed to Wells where it has been running ever since. Mr. Nicholas.

A Valuable Asset. It was after her husband's failure. "The assets if she could not retrieve their fortune," was the comment. "Have they any assets left?" "Oh, yes," was the reply. "What?" "A daughter who is pretty enough to be quoted high in the nationalistic magazine."

Recently Dead. Tom—You called on Miss Myra last night, didn't you? Dick—Yes. Tom—Spent the evening indulging in "small talk," eh? Dick—Well, he talked was entirely too much. The said, "Dick."

Headache. Prevent (dissolving) crystals and organic kingdoms—Now, if I should shut my eyes—and drop my head—would remain perfectly still, you would say I was dead. But I'm not. I keep. Thus what do you call me? Yoke From the Bear—A cold-supper.

The Broken Down Nervous System. OPEN COURSE IN PERSONS WHO ARE APPARENTLY IN GOOD HEALTH — EXTRAORDINARY EFFECTS OF Dr. Chase's Nerve Food

It is not always the pale and bloodless who suffer from nervous exhaustion, and when a person of apparent good health finds himself almost helpless he gets little sympathy from physicians. He is a friend and one frequently has his life activity to the imagination. A tendency to put off the duties of the day, indisposition for care, loss of concentration of the mind, general nervous exhaustion, right, indigestion, headache, fainting, loss of sleep, and, finally, disarrangement of the most common symptoms of nervous exhaustion and prostration.

Nervous diseases are slow in coming on and painful in their treatment. Dr. Chase's Nerve Food is absolutely certain to be of benefit to anyone suffering from exhausted nerves, for it supplies the very elements of nature which go to create new nerve cells and invest them with vigor and energy into the nervous system. Mr. Woodcock, East Moline, Ill., writes: "I was no very nervous all my life, but was so exhausted that at times I would never drive past a place which made me shiver and at other times I had splitting headaches. As for my health was being undermined by my trouble, I got a box of Dr. Chase's Nerve Food, and after having used this preparation for some time I am pleased to say that my nerves are strong and the headache is gone and the headaches are a thing of the past." Dr. Chase's Nerve Food, 50¢ a box, at home for \$2.50. All druggists or Edman, Bates & Co., Trenton, N. J. To protect your signature on the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

FANNY McGRADY'S VICTIM

Patrick Upton is Dead From Aneurysm Wounded Injured By Knife.

Man Engaged For a Week After Being Injured by the Victim's Knife Wounded, and His Case Will Go On Next to Monday.

Strathroy, Dec. 19.—Patrick Upton, who was slightly injured by an aneurysm in the hands of his wife, Fanny McGready, here on Nov. 6, had died yesterday morning. The end was never in doubt by the attending physicians, although the vitality of the man sustained them, and his case will go on record in medical circles. Three wounds were inflicted upon his head, all between three and four inches deep, and his brain has been exposed for more than a month.

The trial of Miss McGready, who has been frequently postponed in anticipation of a change in Upton's condition will be brought on at once. Miss McGready had been keeping house for Upton, who was slain for the past nineteen years, and it is stated that at the time of the attack she was in a state of nervous prostration. It is also stated that at her own statement, she attempted the life of Upton in order to save him from some horrible ravages which had appeared to her in a vision. She had been slightly deranged for a number of years. Upton drove from town, on the afternoon of Nov. 6, and at the McGready home, where he partook of supper.

At the conclusion of the meal the two sat around the kitchen table in social conversation. Mr. and Mrs. McGready were sitting at the table, and Miss Fanny McGready was sitting in a chair before the fire. Miss McGready and McGready were sitting in a chair before the fire. Miss McGready and McGready were sitting in a chair before the fire.

REPLY IS NOT AN ULTIMATUM

Russia's Proposition to Hope For Peace Yet With Japan.

St. Petersburg, Dec. 19.—The opinion here is that the Russo-Japanese negotiations will proceed. It is pointed out that there is no reason why Japan, if not satisfied with Russia's reply, should break off the negotiations, as the reply is in no sense an ultimatum, having the way open for counter proposals. It is suggested as an expedient in case no agreement can be reached, that an arrangement might be made to maintain the present status for a number of years.

DAVIS REPLY THE JUDGE

Hon. S. T. Davis, one of the most prominent men here, has just taken up the case of the late Judge, who was a Judge in the North West, and during his long career was an admirer of the agency of about 800 people against whom the petitioners have charges.

While this is the subject of the examination, several other interesting questions were obtained from Mr. Davis.

It was shown that one of his enemies was a man who had a couple of months previously been reported in the North West Journal that Mr. Davis admitted that he had called his 'factory' employees, one of them into the private office and asked them how they were going to vote.

Mr. Davis, it is said, admitted spending eleven days in a polling booth at King, except for a short interval, and the petitioners say that during his absence one of his enemies posted a 'warrior'.

Conservative what's been from the plea editor of the Globe of Tory corruption and intimidation of work men we should have had. Every one of Davis' men who interviewed him, they said, was a 'warrior' and the ballot in this respect, he did not him last at the King Edward.

Don't, when buying gifts for the Christmas season, be too particular about getting 'something useful.' You remember how well you were at the time of the late Judge, when you were a boy.

Don't forget that the leading merchants of Belleville advertisement in the Intelligencer. If you get your Christmas goods from them, you can depend on being well served.

Don't forget to read Dickson's 'Christmas Carols' in the Intelligencer. It will put you in touch with the spirit of the great festival like nothing else.

Don't forget that good humor is infectious and that politeness, though it may seem to be an exaggerated reserve, if you can't bestow any kindness on your friends, given them a pleasant look.

Don't forget to shake hands with an old friend, and to give a friendly word to the stranger. The stranger is you like him as well as he does you.

Don't imagine that Christmas was for Christians without a turkey, a plum pudding, and a whole lot of other things.

'Eddie' Fleming Dead.
Mr. Edward Fleming, died at the age of 70, after a long illness, at his home, 100 St. George Street, on Monday, December 21st.
